

PMP® Certification Information

The Project Management Institute (PMI®) Project Management Professional (PMP®) credential is a recognised international project management certification. The exam is based on the knowledge identified in *The Guide to the Project Management Body of Knowledge* (PMBOK™) which is the global defacto standard and an ANSI standard for project management. To achieve this credential you must:

- Meet criteria for eligibility, which is summarised as:
 - 4,500 hours of project management experience within the last 6 years with a bachelors degree (or equivalent); or
 - 7,500 hours of project management experience within the last 8 years with a high school diploma (or equivalent)
 - 35 hours of project management training
- Support the PMP® Code of Professional Conduct
- Pass the exam of 200 multi-choice questions (includes 25 non scored pre-test questions) that covers the processes of project management (141/175 is the pass mark).

Following successful completion you then receive a credential that is gaining increased international recognition.

All Harrison International Ltd project management courses are based on the PMBOK™ Guide and support students wishing to prepare for and obtain the PMP credential.

Training Benefits

If you choose to pursue the PMP credential, the PMP Preparation Study Intensive offers you the following additional benefits. You will:

- Optimise your preparation activities since the intense training provides guidance on where to focus to best use the time you have available.
- Strengthens your understanding across project management because of the broad coverage of the subject in a condensed fashion
- Appreciate the effort required to prepare for and pass the exam.

® "PMI®" is a trade and service mark registered in the United States and other nations; "PMP" is a registered certification mark in the United States and other nations; and "PMBOK" is a trademark of Project Management Institute, Inc.
